

# American Flyer Trains

**ERECTOR** AND OTHER **GILBERT TOYS**

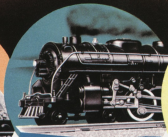

Only *American Flyer* gives you **SCALE MODEL** railroad equipment!

**REAL Two-Rail Track**

Electric trains are only as real as the track on which they run. That's why railroadmen and model train experts rate American Flyer best—with its 2-rail "T"-formed flat top track. Note that there's no old fashioned third rail running down the middle to make it unrealistic and toy-like. Instead, it's built like REAL railroad track and the flat rail top provides the maximum amount of traction so that locomotive wheels can really "take hold." Ordinary round top rails (left) provide only a "point contact."

**REAL Choo-Choo Sound**

Your train should do more than LOOK like a real one as it speeds along the track—it should SOUND real. And American Flyer trains do. All American Flyer steam-type locomotives are equipped with a mechanism, timed to the action of the big driving wheels, which produces choo-choo-choo-choo sounds as the train runs. When the loco goes faster, the choo-choo tempo increases. When it slows up the choo-choos slow up, too, just as with a real locomotive. The whole thing is synchronized with the puffing of the Smoke. It's just like real railroading!

**REAL Smoke**

No other model trains have smoke like the kind that comes from American Flyer locomotives. It's thick and white—not thin and thready—and one capsule lasts and lasts and lasts. The smoke is clean (won't harm walls or draperies) and it has a faint but delightful scent. And all American Flyer smoke locos this year have the amazing new Red Glowing feature that makes them really true-to-life. Startling fire-box glow is created by electric bulbs—and the effect at night with overhead lights out is little short of sensational!

*Pull 40  
or more Cars  
with Ease!*

**PULL-MOR Power**

There's never been anything like it in the electric train business and only American Flyer has it! With remarkable "PULL-MOR" feature American Flyer steam locos can haul FORTY or more freight or passenger cars—or climb grades like a mountain goat! No other makes can come even close to matching this amazing record! Ask your dealer for a demonstration.

NOTE: Because of conditions beyond our control, The A. C. Gilbert Company reserves the right to change prices, compositions, material and finishes, without notice.

**Worm-Drive Motor**

When you buy an American Flyer train EVERY locomotive has a powerful worm-drive electric motor. Not just a few. Not just the higher-priced sets. ALL of them. American Flyer motors are so precisely made that tolerances of .0003 of an inch, or 1/10 the diameter of a human hair, is standard practice!

**-only on American Flyer!**

**REAL Air Chime Whistle**

Another American Flyer exclusive—the famous Nathan Air Chime Whistle that real railroads are fast using to replace the old raucous Diesel horn and do away with troublesome freeze-ups on steam loco whistles. Only with the Air Chime Whistle can you blow short toots or long blasts or maintain constant train speed without slow-downs. Train lights won't fade or dim and grinding motor build-up is a thing of the past with American Flyer's Air Chime Whistle.

**-only on American Flyer!**

**REAL Knuckle Couplers**

American Flyer Knuckle Couplers are not only fool-proof in operation (no electrical wiring to get out of order) but they also LOOK right because they're not bulky or oversized. A built-in spring opens the knuckle when the American Flyer No. 704 Manual or No. 706 Remote Control uncoupler is operated. American Flyer Authorized Service Stations are equipped to make the change-over from your present American Flyer Link-type coupler to the new Knuckle Coupler for a nominal charge.

**-only on American Flyer!**

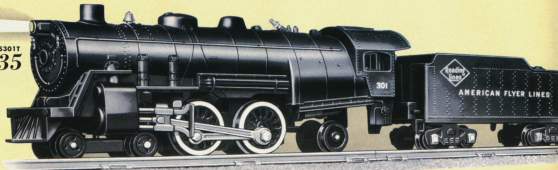

**3/16 Inch Scale**

Every 3/16-of-an-inch in an American Flyer train is equal to one foot in a real train. That's why American Flyer trains are not just toys—they're SCALE MODELS. Compare them with other makes which are higher and wider and yet actually SHORTER! Let your own eyes tell you which is the best!

## "THE BLACK DIAMOND" PASSENGER EXPRESS

No. 5311T "THE BLACK DIAMOND"—5 UNIT STEAM TYPE PASSENGER TRAIN WITH RED GLOWING SMOKE, CHOO-CHOO SOUND AND TRANSFORMER—23 PIECE SET

A mainliner in looks—and a mainliner in performance! Whether she's streaking along the "high iron" at top speed or pulling slowly into the station, she's a thoroughbred through and through. In addition to having the powerful worm-drive motor that provides remote control starting, stopping and reversing, the 4-4-2 "Atlantic" type steam locomotive also pulls new Red Glowing Smoke—the last word in realism! True-to-life Choo-Choo sounds vary tempo with loco speed. Passenger cars all uncouple and couple automatically.

American Flyer Transformer, with 45-Watt output, is included with the "BLACK DIAMOND" Passenger set. Transformer is Underwriters' Approved.

## "THE BLACK DIAMOND" FAST FREIGHT

No. 5312T "THE BLACK DIAMOND"—6 UNIT STEAM TYPE FREIGHT TRAIN WITH RED GLOWING SMOKE, CHOO-CHOO SOUND AND TRANSFORMER—24 PIECE SET

A freight set to be proud of—rugged worm-drive 4-4-2 "Atlantic" type locomotive, tender and four scale model freight cars, all ready to give you years of rail-roading fun! As your super-detailed locomotive picks up speed on a run you hear the steady choo-choo-choo increase tempo, as with a real loco, while realistic red glowing smoke puffs out of the stack. Cars uncouple and couple automatically; locomotive starts, stops and reverses by remote control.

Powerful 45-watt Transformer, Underwriters' Approved, is provided with the "BLACK DIAMOND" Freight outfit.

### No. K5374W "THE CHIEF"—10 UNIT A-B-A DIESEL FREIGHT TRAIN

WITH TWO WORM DRIVE MOTORS, AIR CHIME WHISTLE AND REMOTE CONTROL—53 PIECE SET

The longest model railroad train ever made and a masterpiece of construction from end to end! Just think of it: a three-unit streamlined Diesel locomotive and SEVEN authentic freight cars, the entire train measuring 7 ft., 8 in. long! Here's a train that will have your friends wide-eyed with amazement. As it rockets down the track it looks for all the world as though a magic

wand had been waved over a real train, reducing it to perfect 3/16" scale. The giant locomotives have two motors and can start, stop and reverse by remote control. When you hear the mighty Air Chime Whistle blast for grade crossings and in freight yards you'll agree there's nothing quite so realistic. All cars have Kruckle Couplers.

# American Flyer "Safety-First" TRANSFORMERS

No. 308 - \$36.50

## No. 198 TRAIN POWER CONTROLLER, WITH CIRCUIT BREAKER

OUTPUT: 300 WATTS, 110-120 VOLTS, 60 CYCLES, A. C.

It's more than a transformer—it's a real model railroad power controller and there's never been anything quite like it before! It gives you full control of direction: when your train stops it starts again in same direction without jiggling into reverse first. Panel meters indicate voltage and amperage. Just like real railroads, it has exclusive "Dead Man's Control"—if throttle is let go, train halts. Built-in Circuit Breaker shuts off current if transformer is overloaded or if a "short" develops on track. High impact case. Has off-on switch.

## No. 168 TRAIN POWER CONTROLLER, WITH CIRCUIT BREAKER (Not Illustrated)

\$20.95

OUTPUT: 190 WATTS, 110-120 VOLTS, 60 CYCLES, A. C.

Same as No. 198 Transformer described above except is without panel meters and has lower power output.

## No. 308 DUAL TRAIN POWER CONTROLLER, WITH DOUBLE CIRCUIT BREAKERS

OUTPUT: 300 WATTS, 110-120 VOLTS, 60 CYCLES, A. C.

The finest electric train power controller you can buy! Has features never before incorporated in transformers and with its giant capacity you can run two trains at different speeds on separate loops of track, or FOUR trains (two running at same speed) on four separate layouts. Has full directional control; when train stops it will start up again without going into reverse first. Two panel meters indicate voltage—one for each control. Has green power-on light and two red warning lights that indicate a short circuit. Transformer has "Dead Man's Control"—a real railroad feature. When throttle is let go, train halts! Operation is guarded by two circuit breakers—one for each controller—which shut off power if over-load or short occurs. Case is high impact material.

## No. 188 DUAL TRAIN POWER CONTROLLER, WITH DOUBLE CIRCUIT BREAKERS

OUTPUT: 190 WATTS, 110-120 VOLTS, 60 CYCLES, A. C.

Two circuit breakers guard transformer against short circuit damage or overload. Has exclusive "Dead Man's Control" and permits full directional operation. Can run two trains on separate track loops at different speeds. Transformer case is high impact material.

## No. 158 TRAIN POWER CONTROLLER, WITH CIRCUIT BREAKER

OUTPUT: 110 WATTS, 110-120 VOLTS, 60 CYCLES, A. C.

Has ample output to operate a train set plus small quantity of remote control and automatic accessories. New features provide full directional control: when train stops, it will re-start without going into reverse first. Built-in Circuit Breaker prevents transformer burn-outs due to over-load or shorts. Green light indicates power-on; red light warns of a short circuit. Like real railroads it has exclusive "Dead Man's Control"—if throttle is released, train halts. Case is high impact molded material.

## No. 48 TRANSFORMER, WITH CIRCUIT BREAKER

OUTPUT: 100 WATTS, 110-120 VOLTS, 60 CYCLES, A. C.

Powerful enough to operate a set of trains plus quantity of automatic and remote control accessories. Automatic Thermostatic Circuit Breaker, built-in, protects Transformer from burn-outs. Has three binding posts for simplified wiring. Case is heavy pressed steel.

## No. 13 CIRCUIT BREAKER

If your transformer does not now have a Circuit Breaker you can provide one quickly with this accessory. Suitable for any transformer without a circuit breaker. Prevents transformer burn-outs and overloading.

**TRAIN IS 16 1/2" LONG. TRACK FORMS 120" CIRCLE.**

**No. 740 AMERICAN FLYER HAND CAR**

Watch Mike and Ike pump this intriguing piece of rolling stock along the straightaway and around the bend! Powered by a Gilbert worm-drive electric motor, Hand Car will go fast or slow—and Mike and Ike pump accordingly. Colorfully finished in orange and black with red-white-and-blue emblem on the side. Measures 4 1/2" long.

**No. 741 HAND CAR AND SHED**

Real railroads keep their hand cars in sheds built especially for that purpose, handy to mainline tracks. Here's a complete such unit: Electric motored Hand Car, pressed steel House and half-track section. Car goes into Shed at night; in the morning wheel her out, lift onto mainline track and away she goes. Shed door slides open and shut; base is gray, trim is red and house white. 6 1/2" long, 5 1/4" wide, 5" high. Hand Car 4 1/2" long.

**No. 759 BELL DANGER SIGNAL**

Fascinating sound and action. Approaching train causes bell to set up a warning clang while red lights on Crossing station flash on and off. Spot a couple of these at key grade crossings on your layout—for the latest in railroad safety devices! Base and lamp housing are die cast; house is pressed steel. Track trips included. 5" long x 2 3/8" wide x 5" high.

## No. 583A ELECTROMATIC CRANE

This big Crane will load and unload your open freight cars while you direct its movements by remote control. Powerful electromagnet picks up steel scrap, hoists it into air and drops load into waiting car. Twin button control: one swings cab to left, other to right. Magnet, energized when button is held down, raises and lowers automatically. Heavy embossed steel accessory. 6" long x 4" wide x 11" high. Includes steel scrap, control unit and instructions. Car shown is NOT included.

## No. K766 ANIMATED STATION AND OPERATING COACH

Just like getting a bird's-eye view of a real station! Here's how it works: as train pulls into station tiny passengers—beautifully hand painted—impatiently stride about platform. When coach halts before Station you open car door and swing back exit gate. Immediately passengers board train, which resumes its trip. When train enters station the second time, passengers file out the door and down station ramp. Action is continuous and automatic. Platform made of pressed steel, colorfully finished. Includes Coach, Station, Twin-button Control, four hand-painted figures, power leads. Coach equipped with new

Knuckle Coupler. Illustrated instructions. 13" long x 7½" wide x 3½" high.

## No. 766 ANIMATED STATION AND OPERATING COACH

Same as above except Coach has American Flyer link couplers instead of Knuckle Couplers. (Not illustrated) \$14.50

## No. 751A OPERATING LOG LOADER

Load your freight cars by remote control! Two push buttons direct operations. First button activates elevator which lifts log and attaches it to overhead carriage. Second button operates mechanism which carries log to end of conveyor, where it drops into waiting car. Die cast girders; heavy embossed steel superstructure. 11" long x 8½" wide x 11½" high. Cars shown NOT included.

## No. K771 OPERATING STOCKYARD AND CAR

One of the most extraordinary accessories ever created! After switch is turned action is entirely automatic. Steers in stock yard pens mill about and move continuously. When one of the two exit gates is opened, cattle troop up ramp and into car. Stock car unloads by remote control when exit door is lined up with curral ramp.

Accessory can be operated in a variety of ways. Cattle in one pen keep moving constantly while animals in other pen are filing either into or out of car! Includes Knuckle Coupler Car, Stock Yard, track contact unit, twin button control, cattle and instructions. Measures 11" long, 10½" wide, 2½" high. Car is 7-13/16" long.

## No. 771 OPERATING STOCKYARD AND CAR

Same as above except Car has American Flyer link couplers instead of railroad Knuckle Couplers. (Not illustrated) \$14.50

## No. 758A SAM THE SEMAPHORE MAN

Here's tireless Sam, all set to guard against rail accidents on your American Flyer pike. Press operating button and, by remote control, Sam dashes out of shack, halting on-coming train. Press second button and Sam hustles back into house, enabling train to resume its trip. All-metal construction. 7½" high.

## No. 760 AUTOMATIC HIGHWAY FLASHER

Warns motorists of approaching trains. As train nears, red lights flash on and off, cease only after last car has passed. Accessory has heavy die cast base and lamp housing; cross arms and stanchion are steel. Includes pair

No. 697 Track Trips. Stands 4½" high; base is 2½" square.

## No. 761 AUTOMATIC SEMAPHORE

Safeguard your trains the way real railroads do! Semaphore can be wired to provide an automatic block system control of two trains; when train nears, blade rises and light turns green. After train passes, blade drops and bull's eye becomes red, automatically causing "dead block" to halt following trains. Stands 7½" high.

## No. 598 TALKING STATION RECORD

Good for approximately 1,000 playings. For replacement of record in 755A Talking Station. Diameter is 4½".

## No. 755A AUTOMATIC TALKING STATION

Don't confuse this remarkable American Flyer Talking Station with other kinds which do far, far less yet sell for the same price! When you press remote control button your train halts by itself in front of station. Then, as it waits, sounds issue from station: hissing steam, piston chugs, whistles, "all aboard for New York, Philadelphia, Chicago," etc. When sounds cease, train resumes trip - AUTOMATICALLY. Entire operation is electrical

Here's a thrilling accessory that's all set to handle your rush rail shipments with ease—and all at the touch of a button. Die cast Packing Boxes are placed on loading ramp. Each time control button is pressed, a box is fed singly to trainman who lowers chute extension and sends the miniature crate into the Knuckle Coupler Box Car. Beautifully finished in realistic colors. Measures 7" long x 8½" wide x 3¾" high.

## No. 775 BAGGAGE LOADING PLATFORM AND CAR (Not illustrated)

Same as above except that Car has American Flyer link couplers instead of new Knuckle type. \$14.50

## No. 592A CROSSING GATE

A necessity for all highway crossings on your model pike! Completely automatic in action. When train approaches gate lowers and red light goes on. After last car passes gate rises and light is extinguished. Includes No. 697 Track Trip. Measures 8½" long x 2½" wide.

## No. 593 SIGNAL TOWER

The nerve center of every train yard: the busy two-story Signal Tower where trains are routed on the maze of track that services big cities. Your American Flyer layout should have at least one of these authentically-scaled accessories. Has interior lighting, colorful enamel finish. Measures 7½" high x 5½" square.

## No. 596 OPERATING WATER TANK

Set up this realistic accessory in your yards for colorful railroad action. Press remote control button and spout lowers over tender; release button and spout snaps back to vertical position. Aircraft warning light and direction arrows on roof. Supports are simulated concrete piling. 6" x 6½" x 11".

## No. 581 GIRDER BRIDGE

Heavy die-cast bridge patterned after real railroad type. Slips under any straight track section. Can be used singly or in multiple. Measures 10" x 1¾" x 4½".

## No. 546 WHISTLING BILBOARD

Just the ticket for your non-whistling locomotives. Sound true-to-life long blasts and short toots by remote control. Mechanism concealed in housing. 4" x 7½" x 4".

**No. 589 PASSENGER AND FREIGHT STATION**  
Modeled after the combination stations seen in rural areas and way stops. Baggage door slides open and shut; waiting room door swings on hinges. Realistic windows finished in bright trim. Station fully illuminated. Measures 12" long x 5" wide x 6" high.

## No. 586F WAYSIDE STATION

Just like the stations seen along suburban and commuter rail lines. Brightly finished in red, green and yellow. Heavy steel base; die cast supporting girders. Wealth of detail throughout. Twin bulbs cascade light from underside of roof. Includes redcap and baggage operator with truck. 12" long x 3¾" wide x 5" high.

## No. 778 STREET LAMP SET

Dress up your model pike with these realistic street lamps. One has mail box, another a fire alarm box. Create striking night scenes; just the thing for roads, boulevards, parkways, etc. Set of three. 5½" high.

**No. 612 FREIGHT AND PASSENGER STATION**  
With the freight crane included with this station you can unload Gondola and Box Car right at railside! Boom raises and lowers; cab

makes full swing. Station is illuminated. 19" x 8" x 5½".

## No. 50 DISTRICT SCHOOL

No rural scene is complete without an old fashioned little red schoolhouse. And here it is, with its familiar recess bell and multi-paned windows. Measures 6½" long x 5¼" wide x 5" high.

## No. 750 TRESTLE BRIDGE

Heavy, rolled-steel bridge designed to span rivers and gorges on your model railroad. Bridge Tender's house is illuminated inside. 17¾" x 8¼" x 4¼".

## No. 767 ROADSIDE DINER

No busy rail center is complete unless it has at least one of these familiar "bean wagons" where off-duty trainmen can gather. This colorful yellow and red accessory is fully illuminated and has inset windows and hinged doors. TV antenna adds up-to-date touch! 17" long x 3¼" wide x 5¼" high.

## No. 768 OIL SUPPLY DEPOT

An oil storage center suitable for your big rail terminals. Two scale model tanks, complete with feed lines and hose, mount on heavy metal base. Pump house also made of metal. Tanks have authentic GULF markings. Measures 12" x 4½" x 3".

## No. 271 3-PIECE "WHISTLE STOP" SET

Three units—Waiting Station, Newsstand and Refreshment Booth—will add life and appeal to any model train pike. Waiting Station even has tiny crumpled newspaper scattered carelessly on floor! Finished in realistic colors. Each piece measures  $4\frac{1}{2}$ " long, 3" wide,  $2\frac{1}{2}$ " high.

No. 270 NEWS AND FRANK STAND  
One look at this photograph tells the story of the minute detail of which it is made. Newsstand section at left is complete with miniature magazines, newspapers, posters and attendant. Hot Dog stand has miniature frankfurts, cransedge glass, cash register, etc. Colorfully finished in blue and yellow.  $10\frac{1}{2}$ " long, 3" wide,  $2\frac{1}{2}$ " high.

No. 272 "GLENDALE" STATION AND NEWSSTAND WITH ILLUMINATION

It even has a busy attendant all ready to sell his train passengers a glass of Cola, the latest paper or a magazine! Detail is scaled to perfection. Also has inside lighting, waiting bench, trash barrel and vending machine. Simulated planking and colorful finish.  $11\frac{1}{2}$ " long,  $3\frac{1}{2}$ " wide,  $4\frac{1}{2}$ " high.

## No. 273 SUBURBAN RAILROAD STATION WITH ILLUMINATION

Perfectly scaled and detailed. Complete with vending machine, transparent windows, clock, trash barrel and two benches, one of them occupied by shopper. Waiting room is illuminated.  $11\frac{1}{2}$ " long, 4" wide,  $4\frac{1}{4}$ " high. Choice of red, green or blue finish.

## No. 274 HARBOR JUNCTION FREIGHT STATION WITH ILLUMINATION

Small, imaginative details create atmosphere of great realism; overhead bar-type hoist, flat crates stacked at random, sheets of plywood awaiting shipment, miniature freight scales and the busy station agent. Office has illumination inside.  $12\frac{1}{2}$ " long, 4" wide,  $4\frac{1}{2}$ " high.

## No. 275 ILLUMINATED "EUREKA" DINER

A masterpiece of detail and modeling! Diner has full interior lighting and is located on realistic grass plot. Scale model figure of man is emerging from door. Billboards on back and Cola emblems on front add to realism.  $12\frac{1}{2}$ " long, 4" wide, 4" high. Choice of blue, red or green roof.

## No. 160 ILLUMINATED STATION PLATFORM

You've seen stations like this along suburban and commuter rail lines. Now you can have this beautifully handcrafted model for your own pike. Platform is scripted to simulate planking; upright columns patterned after real wayside station type. Colorfully finished.  $12\frac{1}{2}$ " long x 4" wide x  $4\frac{1}{2}$ " high.

## No. 161 ILLUMINATED BUNGALOW

Add this scale model bungalow with its colorful blue roof to the suburban or rural areas of your American Flyer model railroad and see it take on new interest. House is illuminated inside (wonderful at night!) and has opaque paneled windows.  $8\frac{1}{2}$ " long x 6" wide x 4" high.

## No. 163 ILLUMINATED "FLYERVILLE" STATION

Typical rural railroad station, complete with weather shelter (even has crumpled newspaper on floor!), waiting bench, vending machine, trash barrel and train bulletin. Ticket office is illuminated and has opaque windows. Simulated planked platform.  $11\frac{1}{2}$ " long x 4" wide x  $4\frac{1}{2}$ " high.

## No. 166 ILLUMINATED CHURCH

Winter or summer, spring or fall, country or city—no model pike setting is complete without a church. And this one, with interior lighting, is a fine example of minute craftsmanship, with its simulated stained glass windows and scale model bell tower.  $9\frac{1}{2}$ " long x  $5\frac{1}{2}$ " wide x 8" high.

## No. 167 ILLUMINATED TOWN HALL

No American community is complete unless it has a Town Hall where selectmen meet, councils are held and voters register. And your model railroad is no exception. This Town Hall, with interior lighting, is beautifully made and will be a striking addition to your pike.  $9\frac{1}{2}$ " long x  $6\frac{1}{2}$ " wide x  $6\frac{1}{2}$ " high.

## No. 164 RED BARN

Just the accessory for that farmland or dairy setting! Typical old fashioned red barn with authentic gambrel roof plus block and tackle for hoisting hay to the loft. Windows along the side are accurate cow-stall type. Note ventilators at top.  $10\frac{1}{2}$ " long x  $6\frac{1}{2}$ " wide x  $6\frac{1}{2}$ " high.

#### No. 165 ILLUMINATED GRAIN ELEVATOR

Every Midwesterner will recognize the familiar Grain Elevator with its multi-roof design and elevated storage capacity. This American Flyer model, complete with lighting inside, will add much interest to your pike when it's spotted at railside for quick grain shipments. Approximately 9" high, 7" long and 5" wide.

#### No. 168 ILLUMINATED HOTEL

This intriguing country hotel has a porch on three sides that brings back the days of ladder-back rockers and swinging hammocks. With its interior lighting, the hotel is especially realistic when seen at night or twilight—created by extinguishing or dimming your overhead lights. Windows have simulated panes. 10" long x 6½" wide x 5¾" high.

#### No. 162 ILLUMINATED FACTORY

This is an accessory you'll want to place among your railside industrial setting or near a busy terminal. It's typical of small manufacturing establishments with its "greu-like-Topoy" architecture. Has interior illumination. 9¾" long x 4¼" wide x 5¾" high.
